Introduction

Green India Champion Agro Private Limited (Tissue Culture Plants Laboratory) is a private limited company registered with the Ministry of Corporate Affairs (MCA) on October 18, 2014. We proudly operate the first tissue culture plants laboratory in Vidarbha, Maharashtra, recognized by the National Horticulture Board (Registration No. REG.NHB/27CMHC039990) and certified by the National Certification System for Tissue Culture Raised Plants (NCS-TCP), Department of Biotechnology. Our state-of-the-art laboratory specializes in producing a variety of high-quality tissue culture plants, including fig, banana, pomegranate, bamboo, teak, dragon fruit, red diamond guava, lemon, and more. Our ongoing research and trials ensure that we continuously enhance our product offerings. With over 12 years of experience and thousands of satisfied customers, Green India Champion Agro Private Limited is committed to providing the highest quality, modern plant varieties to farmers, with the primary objective of improving their economic conditions.

Our company is progressing steadily in the market, driven by clear policies, strong intentions, and established rules. We attribute our success to the support of our dedicated farmers and employees. We warmly invite you to visit our tissue culture plants laboratory and witness our commitment to excellence firsthand.

Green India Champion Agro Pvt. Ltd. was incorporated on 18 October 2014 under the dynamic leadership of Mr. Sanjay Mandekar and Mr. Pramod Mahajan in Nagpur, Maharashtra. Green India Champion Agro Pvt. Ltd. is one of the largest companies in Middle India. It is an ISO 9001:2008 certified company that works on horticulture, forestry, tissue culture plant plantation, development, and agriculture consultancy.
